

FOR IMMEDIATE RELEASE

Vuzix, the leading Video Eyewear manufacturer, wins two 2008 International CES Innovations Design and Engineering Awards

Rochester, NY – November 14th – Vuzix Corporation is proud to announce it is the recipient of two 2008 International CES Innovations Design and Engineering awards. The awards, distributed by the Consumer Electronics Association, are the most prestigious awards offered in the consumer electronics field. The two winning products are:

VR920-X

iWear® designed specifically for the XBOX 360 gaming console. This product allows the user to enter a 3-D gaming world with an integrated 360 degree of freedom head-tracker to step “inside” the game. Product availability is expected in January 2008.

LV920-1

A medical use product produced for the low vision market. It provides patients with macular degeneration, diabetic retinopathy, retinitis pigmentosa and other low vision diseases the ability to read and watch television. The technology improves vision in patients with as much as 85% occlusion in both eyes. Product will be available in December.

Information on the awards is available on the Consumer Electronics Association website at either below URL:
