

Press Release

Vuzix releases the Wrap 1200AR, its next generation digital see-through AR eyewear system.

ROCHESTER, NEW YORK (February 11, 2013) - Vuzix Corporation (TSX-V: VZX.V, OTC:BB: VUZI.D, FMB: A1KCVK) today announced that it is now shipping the next generation of its award winning digital see-through Augmented Reality eyewear, the Wrap 1200AR. This new gen product retains the familiar sunglass style look, now with a wider field of view, adjustable eye-separation and other enhanced features not previously available in digital see-through AR eyewear.

"We are excited to be shipping these new digital ARglasses, offering a huge 75-inch screen, as seen from 10 feet. New features such as adjustable eye-separation, synchronized camera and display tilt combine for the best digital see-through AR user experience on the market." said Paul Travers, President and CEO, Vuzix Corporation. "AR is taking the world by storm and is gaining momentum in many markets. We provide these AR tools to research facilities, universities, game developers and enthusiasts, enabling them to develop affordable and compelling Augmented Reality solutions." he said.

As a bonus, the Wrap 1200AR includes a free copy of maxReality, an AR content authoring plug-in for Autodesk 3ds Max. By utilizing industry standard video capture and display technologies, the Wrap 1200AR is compatible with virtually all leading AR authoring systems. Vuzix also provides a royalty free VR/AR SDK to assist software developers in enabling direct support for Vuzix technologies. The VR/AR SDK for Windows demonstrates stereoscopic 3D video, head tracking and utilization of the AR camera data. See www.vuzix.com/developer for additional information on downloading the SDK.
