Vuzix adds Atheer AiR™ Suite for Remote Expert Collaboration and Rapid Task Flow Deployment to its Growing Ecosystem of M100 Smart Glasses Applications

Vuzix M100 enabled with the AiR Suite augmented reality application allows field workers and other deskless professionals real-time communication

ROCHESTER, N.Y., Dec. 30, 2015 /PRNewswire/ -- [Vuzix® Corporation](#) (NASDAQ: VUZI), ("Vuzix" or, the "Company"), a leading supplier of video eyewear and smart glasses products in the consumer, enterprise and entertainment markets, is pleased to announce that the company has formed a partnership with Atheer, a pioneer of AiR™ (Augmented interactive Reality) computing. The Vuzix [M100](#) Smart Glasses now supports Atheer's [AiR Suite](#) designed specifically for remote expert collaboration, management and rapid task flow deployment, which can be downloaded from the [Vuzix app store](#).

"The M100 Smart Glasses can enhance workflows for companies in a broad range of sectors," said Paul Travers, President and Chief Executive Officer of Vuzix. "Atheer's AiR suite is well aligned with the enterprise class productivity and collaboration capabilities that our customers expect from our devices. We're looking forward to an ongoing relationship that will benefit both of our companies to provide a world-class enterprise solution."

"We're excited to work with Vuzix, as their hardware complements and works seamlessly with our AiR Suite for Enterprise," said Alberto Torres, CEO of Atheer. "The deskless workforce in Fortune 1000 entities is growing rapidly and needs hands-free access to task-specific information, as well as real-time guidance for complex tasks. Our AiR Suite software and Vuzix M100 is a fitting combination for companies looking to maximize performance and deploy smart glasses-based productivity, immediately."

Communication between deskless professionals and subject matter experts is key to enabling quick decision making and a productive workforce. The M100 with the Atheer AiR suite enables deskless professionals to see checklists and step-by-step procedures in their smart glasses and enjoy hands-free interaction with information using simple gestures, voice, or head motion. Further, the suite enables professionals to team up with

remote experts via video calls and receive guidance through real-time image annotations to resolve problems quickly. The AiR Suite also includes an intuitive task flow authoring tool that allows enterprises to create smart glasses-optimized procedures and task flows with a simple drag-and-drop interface, saving valuable R&D resources and months of development time.

Vuzix and Atheer will demonstrate the AiR Suite running on M100 Smart Glasses in the Vuzix booth #14048 at the Consumer Electronics Show on January 6-9th in Las Vegas. More information about the Vuzix M100 can be found [here](#) and about the Atheer AiR Suite [here](#). The AiR Suite is available for download at the [Vuzix App Store](#) and the full subscription license is priced at \$49 per user per month. All Vuzix customers, however, will receive a 30 day free trial.

About Atheer

Atheer is the pioneer of AiR™ (Augmented interactive Reality) computing that is designed to enhance the productivity and safety of deskless professionals at Fortune 1000 companies. The award-winning Atheer AiR platform combines the power of immersive augmented reality with intelligent gesture, voice and head-motion interactions as well as real-time rich-media collaboration, all on a mobile smart glasses platform. Wearing the see-through AiR Glasses enables viewing rich information critical to workflows, interacting with the information naturally and collaborating with remote peers like never before – without the need to hold any device. Leveraging the Android-based AiR OS and the collaboration-centric AiR Suite, developers and companies around the world are creating next generation enterprise productivity applications and workflows to empower the 21st century workforce. The company is based in Mountain View, CA and is backed by prominent investors including Bobby Yazdani, Founder and Managing Partner of Cota Capital and Signatures Capital, and Farzad Naimi, Co-Founder & Managing Partner, RONA Holdings.
