

GE Executive Joins Vuzix Board of Directors

ROCHESTER, NY, June 1, 2016 – [Vuzix® Corporation](#) (NASDAQ: [VUZI](#)), ("Vuzix" or, the "Company"), a leading supplier of video eyewear and smart glasses products in the consumer, enterprise and entertainment markets, is pleased to announce that Paul Boris has joined its board of directors.

"Paul's addition to the Vuzix Board of Directors supports our plans to grow our business and coincides with the launch of our next generation Smart Glasses products. He is a leader in his field and we are thrilled to welcome him to our board," said Vuzix Corporation's President and CEO Paul Travers.

Mr. Boris has driven digital transformation within industrial operations for decades. In the mid-90's, Paul led the trend of deployment of technology within manufacturing as a senior consultant with one of the largest MES integration firms - concepts we now call the Industrial Internet of Things (IIoT). Paul was the dynamic force behind the Perfect Plant initiatives at SAP. As CIO of Advanced Manufacturing Strategy for GE, he focused on driving GE's innovative factory strategy to increase productivity and deliver asset and operations optimization and is currently Head of Manufacturing Industries for GE Digital. Paul's extensive experience in driving industry initiatives and as a senior contributor at several Fortune 100 companies makes him an ideal candidate to join the Vuzix board.

"With Paul and the recent addition of another new member, Edward Kay, we have a strong advisory team to take us into the next phase of our company's development," Mr. Travers continued.

About Vuzix Corporation

Vuzix is a leading supplier of Video Eyewear and Smart Glasses products in the consumer, commercial and entertainment markets. The Company's products include personal display and wearable computing devices that offer users a portable high quality viewing experience, provide solutions for mobility, wearable displays and virtual and augmented reality.
